

Easy Drug Testing Anytime, Anywhere

G-Check, GK-Check

Beyond simple drug testing, the **world's No.1 toxic substance detection technology.**

> Smart Drug Detection Technology

Philmedi integrates smart technology into every product. From the **Smart Straw** and **Smart Cup** to the **AI-powered multi-drug testing app**, Philmedi can detect more than **20 types of drugs simultaneously**, leading the future of detection.

> Evolving into Hazardous Substance Detection

Environmental destruction endangers our health. Philmedi develops kits capable of detecting **trace harmful substances** in food, water, and air, and identifying **toxic substances accumulated inside the human body**, safeguarding health and everyday life.

High-Sensitivity Hazardous Substance Detection Platform

From **Drug Screening** to
In-Body Toxic Substance Testing

Technology That Creates Miracles!

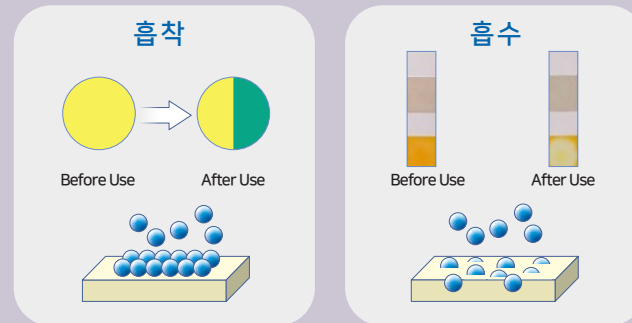

> Advanced Material Fusion & Adsorption Technology

Philmedi has dramatically improved reaction time and color change by applying material fusion technology tailored to the characteristics of drugs and reagents, combined with adsorption technology that accelerates molecular bonding.

> The Miracle of Color Change in 10 Seconds!

Strong molecular bonding enables rapid reactions, allowing color changes to appear within just 10 seconds. The results are clearly visible to the naked eye, providing unmistakable color contrast for easy interpretation.

Innovative Performance Meets Exceptional Usability!

> Phil Screen 10 – Multi-Drug Simultaneous Test Kit

Detects up to 10 different drugs instantly with one kit, regardless of sample type.

- Methamphetamine
- MDMA
- Cocaine
- Ketamine
- Methcathinone
- Morphine
- Methylphenidate
- Phentermine
- MDPV
- Heroin

> Outstanding Detection Performance

PHILMEDI	Category	Company C
10-20 seconds	Reaction Time	30 seconds - 20 minutes
99% (Normal detection)	Accuracy	99% (No detection)
Strong (No color bleeding)	Moisture Resistance	Weak (Color bleeding)
Red bull, some acidic drinks	False Positive	All acidic drinks
-	False Negative	All acidic drinks
\$1.8	Cost per Test	\$2.0

> World's First Sticker-Type Detection Technology

- Introduced a sticker-type design focused on portability and user convenience.
- Developed the Nail Sticker type that enables discreet and private testing.
- Designed with a half-color change feature for easy result interpretation.
- Provides testing convenience by detecting up to ten different drugs in a single test.

> 10 Registered Patents Worldwide

Philmedi has secured strong technological leadership in the global market with patented compositions and formulations, proudly holding ten registered patents worldwide.

> Stay safe, stay discreet with the world's first nail-sticker drug test kit: G-Check SPYNAIL.

Discreetly check your drink's safety anytime, anywhere.
